

## **FISCAL NOTE**

TO: Chief Clerk of the Senate  
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: February 24, 1995

SUBJECT: **HB 683 - SB 1614**

This bill, if enacted, will provide that county highway departments shall be responsible for all road signs in the county and requires the county legislative body to appropriate annually sufficient funds for labor and materials for erection, maintenance and placement of such signs.

The fiscal impact from enactment of this bill is estimated to be minimal since county roads are currently the responsibility of county officials. This estimate assumes that those roads in the state highway plan will be excluded, since TCA 54-5-703 prohibits anyone other than the Department of Transportation from erecting signs that are included in the general highway plan of the state.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

James A. Davenport, Executive Director
